

Mélina, rusticity and versatility

DETAILED CHARACTERISTICS

| Scutched flax yield | Scutched flax content | Wilt | Scorch | Oïdium | Lodging resistance | Earliness |
|---------------------|-----------------------|------|--------|--------|--------------------|-----------|
| 6 | 6 | 7 | 9 | 3 | 8 | 5 |

1 Low/Sensitive/Very Early

9 Very High/Very resistant/Late

TECHNICAL PERFORMANCES

| | Scutched flax yield (% of witnesses) | Total fibres content (% of witnesses) | Total fibres yield (% of witnesses) | Scutched flax content (% of witnesses) | Witnesses |
|-------------------------|---|--|--|---|------------------------|
| CTPS trials 2002/2003 | 106.80 | 98.49 | | | Hermès, Aurore, Viking |
| TDL trials 2009 | | 99.83 | 106.70 | | Alizée |
| Scutching data TDL 2010 | | | | 98.14 | Alizée |

HIGHLIGHT POINTS

VERY GOOD COMBINATION OF AGRONOMIC CHARACTERISTICS.

GOOD LODGING RESISTANCE.
